Schedule.

Item No.	Description of material offered	Quantity	Price quoted F. O. R.	Time of delivery
	Deep Well Electric Pumping set conforming to the attached specification ..	One	Bangalore City.	

Specification for the Deep Well Electric Pumping Set required for Whitefield Water Supply.

General.—

(1) Inside diameter of borewell casing	6″
(2) Depth of the borewell	123′
(3) Distance between the delivery point on the top of the well and the strainer of the pump below	120′
(4) Difference of height between the top of the well and the elevated tank including friction in the pipe line ..	100′
(5) Total pumping head	220′
(6) Pumping capacity	20 Imperial gallons per minute.

The pumping set should consist of an electric motor vertically and directly coupled to a multi-stage pump below by means of a steel shaft of suitable diameter, the pump being capable of lifting water from a depth of 120 ft. in the borewell into an elevated tank against a head of 100′, the total head aggregating to 220 ft.

Pump.—The pump may consist of a number of stages and should be such that the whole set should easily get into the 6″ diameter well, the outside diameter of the pump bowl therefore not exceeding 5½″. The pump should preferably have semi-open type impellers and should be provided with satisfactory arrangements for adjusting the discharge from the top without operating the delivery valve. The impellers should be of the highest quality bronze, which do not wear away rapidly by sand or silt, if any, in the well.

Suitable thrust ball-bearing should be provided on top to balance the whole weight of the pump.

Sand and silt proof bearings assuring correct alignment and sturdiness with water lubrication should be provided between impellers. The shaft should be made of non-corrosive stainless steel and should consist of uniform lengths with necessary substantial couplings which do not get loosened while working.

The shaft should be provided with suitable guide bearings at short intervals to prevent whipping or gyrating of the shaft and it should be made of such material that is not damaged either by sand or silt, and should be water-lubricated.

The pump should be provided with all the delivery pipes necessary inside the well up to the top in suitable lengths to facilitate erection and handling and should be complete in every way to deliver the water from the well to the ground on the top of the well. The capacity of the pump should be 20 imperial gallons per minute against a total head of 220 ft. The accessories must include a suitable indicator to indicate the level of water and also a pressure gauge to show the head against which the pump is working.

Two spare lengths of pipes and shafting with necessary bearings may be quoted for separately so as to order for them in case of necessity.

Motor.—The motor should be suitable for 220 volts, 25 cycles, 3 phase alternating current and should be of sufficient H.P. as not to get over-loaded on any account while the pump is working and it should be mounted on a suitable frame. It being a vertically coupled direct driven unit, the windings should be sufficiently well protected from being soaked by the lubricant of the motor bearings. The motor should be provided with ball or roller bearings and all the other accessories necessary to be directly fitted on to the pump below.

The motor should be equipped with a suitable starter provided with no voltage release and overload relay.

Spares.—Spares that are necessary to be kept in stock for replacements when needed may be quoted separately and the details of spares that are necessary to be got being left to you to suggest.

The quotations should furnish all the details of the motor and pump such as name of manufacturer, efficiency independently as well as the overall efficiency of the set.

The firms should also furnish the necessary guarantee regarding the duty and efficiency specified.

A reduction of 5 per cent in price will be made for every one per cent fall in efficiency below the guaranteed figures subject to a tolerance of two per cent either way.

A complete set of working drawings showing all the details of pump and motor should also be sent with the quotation.

A set of tools to manage the set has to be included in the quotation.

The pumping sets should be quoted f.o.r., Bangalore City Railway Station and the time of delivery should be noted in each case.

Yours faithfully,
V. VEDAVYASACHARYA,
Secretary,
Stores Purchase Committee.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests, if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. 6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for immediately after the sale.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

The deposit made by the unsuccessful tenderers will be immediately returned to them.

6. The successful tenderer shall, within eight days of the acceptance of his tender being communicated to him, deposit at Hassan District Treasury, a further sum of Rs. 900 in cash or in approved securities duly endorsed in favour of the Comptroller to the Government of Mysore to make up with the deposits previously made, a sum of Rs. 1,000 and shall execute an agreement in the appended form binding himself to conform to the conditions therein set forth and if he fails or refuses to sign the agreement or to make the further deposits required within the time aforesaid, the deposits already made will be forfeited to Government and the contract otherwise disposed of.

PROSPECTUS.

1. The Company has been formed for the objects set forth in the Memorandum of Association and in particular to manufacture pulp and paper at Bhadravati in the Mysore State.

2. At present the consumption of paper per head of the population is very low in India and it can be confidently expected that with the spread of education, the consumption will increase much more rapidly hereafter. The present demand is met to the extent of about 45,000 tons by the Mills in India and the balance of about 68,000 tons is imported from abroad and of this, the quantity subject to the protective duty is about 11,000 tons. Though it is not possible to manufacture at present in India all the varieties imported, it is believed that a fairly good percentage could be replaced by local manufacture.

3. There is at present a protective duty of $1\frac{1}{4}$ anna per lb. on printing paper which contains no mechanical wood pulp or in which the mechanical wood pulp amounts to less than 70 per cent. of the fibre content, writing paper, and all other sorts not specially mentioned in the schedule. Even the Revenue Duty on the unprotected varieties of paper varies from 25 to 30 per cent. *ad valorem.* Wood pulp is subject to a protective duty of Rs. 56-4-0 per ton. The present scheme of protection expires in March 1939 but it is hoped that suitable assistance will be continued to the industry.

4. During the last few years, considerable research and investigations have been made in the use of bamboo as a raw material for the manufacture of Pulp and the initial difficulties have been overcome and processes perfected to suit the raw material.

5. The Paper Mills that are now working in India are mostly in Bengal and near Bombay. A mill is being put into operation near Rajahmundry. But there is no factory of any magnitude in South India.

6. Bhadravati offers exceptional facilities for the establishment of a pulp and paper plant.

It is situated on the banks of a perennial river, the Bhadra, and the large quantity of water required for the plant is easily available and the water is of good quality.

For the supply of raw materials required for the Iron and Steel Works, tramways radiate from Bhadravati and run for a total length of about 100 miles through dense forests where wood and bamboo grow in abundance. Systematic operations for the collection of firewood are being conducted and other facilities are easily available, so that the bamboo can be cut and transported to the factory site at very favourable rates. Recently the Forest Department of the Government of Mysore have made a detailed survey of the bamboo resources and have come to the conclusion that a much larger quantity than what is required for the proposed plant is easily available within economic distance of Bhadravati. Full allowance has been made on the basis of the known data for the seeding and death of bamboo.

The Mills are proposed to be located close to the Mysore Iron and Steel Works and power, railway siding, workshop and other facilities can be arranged on advantageous terms. Sufficient trained and ordinary labour is available.

Bhadravati also forms a convenient distributing centre for the State of Mysore, the Southern Maharatta country, Hyderabad and some of the Districts of the Madras Presidency, which form its favourable geographical market.

The facilities available should make the operations economical in spite of the distance from the coal fields which increases the cost of coal.

7. The plant proposed to be installed is designed to manufacture daily 17 tons of Chemical Pulp, which will be mostly utilised for the manufacture of about 15 tons of writing, printing, Badami paper, typewriting paper and wrappings, including certain varieties of paper not at present made in India. The small surplus of about 2 tons of Pulp is intended to be sold in India if considered desirable. In designing the plant, the possibility of future extensions of both the pulp and paper departments has been kept in view. The design of the plant is modern and up-to-date and incorporates all improvements calculated to keep down the working costs.

8. The Government of Mysore who have made the preliminary investigations through the Board of Industries and Commerce are prepared to give the following facilities and concessions :—

(*a*) They will subscribe ten per cent of the capital.

(*b*) They will give, free of cost, the necessary extent of land in close vicinity of the Mysore Iron and Steel Works for the construction of the plant and quarters for the staff.

(*c*) They will undertake to supply the raw materials required, about 14,000 tons of bamboo, at Rs. 12 per ton delivered at the factory sidings. The rate will be subject to revision at the end of five years.

(*d*) They will supply electric power at ·55 of an anna per unit during the day and ·35 of an anna during the night.

(*e*) They will allow the Paper Factory to take the tramway, and metre gauge sidings from the tracks of the Mysore Iron and Steel Works.

(*f*) They will arrange with the Mysore Iron and Steel Works for hauling wagons between the Mills and the railway station at rates to be mutually agreed upon. They will similarly afford workshop and other facilities to the Mills and medical and educational amenities to the staff.

(*g*) They will purchase the varieties of paper manufactured by the factory to the extent of their requirements provided quality and price are satisfactory.

9. With the facilities available, it is anticipated that the capital cost can be kept very low. The estimate of the capital outlay is Rs. 21 lakhs, Rs. 19.5 lakhs for buildings, plant, machinery, water-supply, steam plant and electrolyser equipment, fully erected and Rs. 1.5 lakhs for the provision of quarters for the staff and other amenities. The working capital required has been calculated at Rs. 4 lakhs.

10. The cost of production of a ton of white paper including depreciation has been estimated not to exceed Rs. 250 a ton and the nett selling price may be taken at Rs. 350 a ton. The normal output should be 4,500 tons of paper and about 600 tons of pulp. Assuming, however, an output of 4,000 tons of paper without any surplus pulp, the margin will be Rs. 4 lakhs a year which should yield a handsome dividend after providing for the usual reserves.

11. The Company will be under the management of a Board of Directors which will consist of nine members of whom, three including the Chairman, will be nominated by the Government of Mysore. The appointment of the General Manager and that of the Secretary to the Board will be subject to approval of the Government. The qualification of a Director other than a Government Director will be the holding of 500 shares in the Company of the nominal value of Rs. 5,000. The sitting fees of the Directors including the Government Directors, shall be a sum not exceeding Rs. 25 each and in the case of the Chairman a sum not exceeding Rs. 35 for every meeting of the Board attended by them. They will be paid travelling expenses for attending the meetings.

12. None of the Directors has any interest in the promotion of this Company.

13. Preliminary expenses including brokerage will not exceed Rs. 15,000.

14. A brokerage not exceeding $\frac{1}{4}$ per cent. will be allowed to Banks or recognised Brokers on all applications for shares submitted by them.

15. The minimum subscription on which the Directors may proceed to allotment is 75 per cent of the authorized capital.

16. A copy of the Company's Memorandum of Association is attached to this Prospectus and forms part of it.

17. Applications for shares should be made in the form accompanying this Prospectus and should be forwarded with the deposit direct to the Company's Registered Office at Bangalore, or the State Huzur Treasury, District and Taluk Treasuries in the Mysore State, The Imperial Bank of India and its branches, and The Bank of Mysore, Limited, Bangalore, and its branches.

18. Subscription List will be closed on 10th June 1936 or earlier in case the total capital is subscribed before that date.

19. Where no allotment is made, the deposit will be returned in full, and where the number of shares allotted is less than the number of shares applied for, the balance of the deposit will be applied towards the payment of the amount of the allotment money.

20. Copies of the Prospectus and forms of application can be had at the following places :—

(*b*) All Government Treasuries in the Mysore State ;

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator, and in other cases to that of the District Forest Officer, subject to the following conditions:—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of

having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests, if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter, intimating the price fixed by the District Forest Officer for the unsold wood, and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000, provided the full value is paid not later than the 15th May 1937. The moneys shall be paid into such treasury as the District Forest Officer may direct within the time specified.

The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.
